

WT-A: February 25 - 27

ELI TYLER

Eli Tyler has worked with high school students in over a dozen countries across the world. He graduated from Stony Brook University with his B.S. in Anthropology focusing on Primitive Technology and stone tools. Since graduating he has been on staff with Youth For Christ starting and running teen center outreach ministries in New York, Pennsylvania, and internationally in the Cook Islands. Tyler has a passion for helping young people and loves to share the hope he found in the transforming message of the Gospel. The Poconos offer endless amounts of outdoor adventures and teens who need Jesus. Eli is recently married to his wife, Hannah. They are proud parents of a great number of salamanders.

The 2022 's Winter Thaw theme is *It's Not About You!* – Look outward not inward based on Micah 6:8. It is so easy for teens to think about themselves, and not consider those who are in their sphere. Micah 6:8 provides a list of things people ought to do to look outwardly, not inwardly. In a culture which some call narcissistic, how can believers in Jesus act, love, and live differently than their friends?
